

Vi lagerför ett brett program av spårkullager i tum. Se komplett tabell för mått och beteckningar. Det är viktigt att kontrollera bredd måttet i och med att tätade och otätade tumlager har olika bredd mått.

Lager type	d = innvendig diameter	D = utvendig diameter	B = bredde uten tetning	B1 = bredde med tetninger
------------	------------------------	-----------------------	-------------------------	---------------------------
